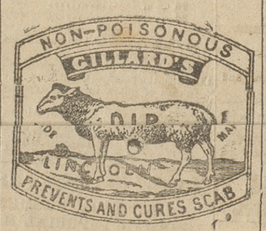
GILLARD'S
SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with

Supplied to the Prince of Wales's Farm at
SANDRINGHAM
TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—
"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that dip keep scab out of the flock."
From Messrs Patrick Mahon, junr., Cirilo Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—
"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

Vasilinomania
I stood one shining morning where
Dark frowned the crags of Innisvair.
The sunlight's soft and tender ray
On grim Glenarney's summit lay:
And there, upon an ancient rock
That long had braved the tempest's shock
I saw, inscribed in brilliant green,
The curious legend VASELINE!
And on the ground lay stretched and prone,
His head upon a mossy stone.
With ragged clothes and tangled hair,
And beard unkempt, and bosom bare.
A sleeping man, of stature rare,
With brush and pail beside him there.
With much surprise and some alarm
I spoke, and shook his brawny arm.
Then yawned his hairy visage wide,
And sleeping still the man replied:
"It cured me when I dying lay;
For it I travel night and day;
"On foot around the world I've been
To sound the praise of VASELINE!"
"From Pole to Pole, through all between,
I've spread the name of VASELINE.
"On mountains high, in forest green,
I paint the name of VASELINE."
"I'd mount the mightly vault on high,
To grave it on the azure sky;"
"To cure all ills on earth I ween,
Heaven sent in mercy, VASELINE!"

PROVINCIAL TRIBUNALS.

The transfer of the Provincial capital to Belgrano or Flores, temporarily, is the topic of the hour. Strange that, although there is really nothing else talked of in Government circles, the papers remain silent on the matter. Of the 27 papers printed daily in this city, with the exception of ourself, there is not one that has broached the subject.

The town is turned inside out—'escribanos' shut up, courts closed, litigants unable to move in their law suits, the titles to real estate incapable of transfer, Provincial matters become National, and National quintas become Provincial. Never in the political history of Buenos Aires were affairs brought to a greater dead-lock. On Monday morning the Cabildo was crowded, but there were no judges, and some of the best known 'escribanos' of the town, we hear, are left without registros. Governor Rocha, yielding to the importunities of the hour, spent all Sunday with his Ministers framing his Message. Things reached such a pass on Monday that there was not in the entire city a single agent or authority of Provincial jurisdiction.

On Tuesday, at last, the Provincial Judges made an effort. The Lord Chief Justices assembled to take some measure to hold things together. Dr. Saenz Peña made a speech, and then the Judges drew up a code of rules providing for the transfer of all the Provincial law-suits to National law courts. Since Monday there is no such thing in this town as a Provincial court, and in the multitude of lawsuits pending, our readers may well imagine that not all the 'escribanos,' 'procuradores, lawyers and lawyers' clerks could, within 12 months from the date hereof, revise, restamp, annotate and register all these lawsuits that now pass to the National courts.

It would be idle on our part to publish a translation of this lengthy court decree; suffice it to say, that all lawsuits have to be transferred and registered in the National courts; and beneath the arched corridor of the Cabildo, we again heard it mooted yesterday, that the Provincial courts will, in all probability, be opened in the Wanklyn Quinta.

EDUCATION.

The National Government has removed the old Board of Education and created a new one. Now it remains to be seen if the new members will follow up the old policy or inaugurate a new one. The ex-superintendent General Sarmiento, a great friend of Horace Mann, was pronounced the greatest educationist of South America, and if we look into the direct causes that gave him the reputation as such, one must confess that it was one-sided, that the views of the old statesman were directed towards one point at the expense of others quite as important and as necessary to the interests of the Argentine Republic.

General Sarmiento was the founder of the Normal Schools on this continent; thanks to his efforts we have produced schoolmasters and we have had pedagogues; following the natural current of events, the National colleges gave the schoolmasters work to do, whilst the primary education, that of children in general, was neglected in spite of Sarmiento's good intentions, because left to the indiscriminate interference of provincial governments. The most important department in this country is that of the Educacion Comun, because it teaches and educates the child. The decay of this primary institution was the natural result of neglect and of an excessive care bestowed on the National colleges, where a great number of youths were prepared for professional careers.

The National Colleges with their present system will be the bane of this country for many reasons, just as the rise of the Educacion Comun will be its safe-guard. What do youths learn in these Nat. Colleges, and who are those who attend them? Living in a democratic country like this, all aspire to an aristocratical culture, and necessarily every paterfamilias sends his children to what he considers best, the National Colleges, where they learn Greek, Latin, philosophy, physics, chemistry, algebra, natural history, etc. What are the results? Thousands of young men attend the studies, and then rush into the University, going up for the bar. Thus it happens that every second man in the cities of the republic, with any pretentions to education, is a lawyer, and this state of affairs takes place in a country where there are a little over 2,000,000 souls. This is bad enough, but this is only part of the evil.

Furthermore, the studies in the National Colleges are so spread and so minute, as to exact the description of a screw in any Frenchman's newly invented machine; so detailed as to demand from the youth every imaginable chemical formula, and the final upshot is that out of one hundred students five intelligent ones know something, whilst the remainder get a smattering of many things and know nothing. Thus it happens that these Nat. Colleges do not produce Hellenists or Latinists, philosophers or chemists, scientists or mathematicians.

It is a melancholy fact, but it is only too true. Who are our Hellenists?—our chemists? Surely not Argentines: and so on. These are facts and stubborn facts, when all know that there is no more intelligent race on the face of the globe than the Argentine: The Argentine boys are smarter than the European, and more precocious. The present system of education has made lawyers without lawsuits, escribanos pulling the devil by the tail, and newspaper men brewing mischief and scandal; the country has produced a few engineers, some no doubt very good, but on the whole only ambulant equations of the second degree. Education is too theoretical, the new Board must take a practical view of matters. Thus, if a man studies for a profession, his education should be on a par with his future career: nobody can ask of a student of law as much about acids and alchalies as of an apothecary; it is not fair to exact from an engineer as much of Kant, Balmes, Jules Simon and Saisset as from a man preparing to enter literary professions. What is the earthly use of forcing unfortunate students down to the minutest details when they only create confusion? How is it on the other hand that young men can emerge from these National colleges and be totally ignorant of what a lever is? A litany of defects, complaints and lamentable educational failures could be raked up, but it is not necessary. Suffice it to say that with the present system we will never make engineers, mechanics, chemists, or scientists. It is all a dream at the best; exact sciences and classics are bungled in a merciless manner, and in trying to imitate a deficient French educational system in the National Colleges, the country has forgotten that the Plate is not the Seine, that Frenchmen can start such a system when there are millions of productive agents to counterbalance its evil effects. If the Argentine Republic had 10,000,000 inhabitants, these National Colleges might afford this education on an improved basis, but at present they are too much as regards population and too little as regards educational pretensions.

TRIP TO RIO NEGRO.

THE BAR.

When arriving at the Rio Negro on our way town to San Blas, we had so little difficulty in entering the River that in fact we know nothing about the bar. Smoking a cigar and humming Nancy Lee, we passed over the bar without the slightest trouble. Old Aeneas himself did not make the descent to Avernus with greater facility: but on returning to Buenos Aires we found to our cost what the bar of the Rio Negro really is, and we caution our readers against it. We left S Patagones at daybreak on Saturday morning. As we passed down the river we could recognize Dr. Humble with his wife and daughter standing at the quinta gate, overlooking the river. The morning was delicious, the tide served at 9 a.m, and we reached the mouth of the river at half past 8 o'clock; when the pilot came on board, he looked rather down in the mouth, and we asked him how was the bar; he replied 'very rough,' and passed to the bridge; soon the news reached us that as it was blowing fresh outside, it was better to wait until the next morning. Davison looked very glum, as he had telegraphed to his wife to meet him at the Boca on Wednesday. To wait over for a day was however a mere pastime. So we took to writing for the *Standard* our first impressions of Bahia Blanca. Sunday morning came, and we were all in good humour. At 9 a.m. the pilot came across from his estancia, steam up, and hurrah for the Boca; but when we got fairly in sight of the bar:—"Stop her!" was the order. Captain Spurr, who was just in as great a haste as ourself to get to Buenos Aires, hoisted a jib and turned the Villarino round, dropping back to our former anchorage alongside

or any other ingredient beyond Milk and Sugar. DELICIOUS FLAVOUR. Directions as simple as A B C. TRY IT.

the schooner Esperanza, and to wait for to-morrow, as the waves on the bar were mountains high. Colonel Winter and some 2 or 3 others took the steam launch and went back to Patagones. Davison was perfectly dumb-founded at so unlooked for a delay, and learning from Simonet, the first officer of the Villarino that it the wind held in the same direction, we might be a week or fortnight at our present anchorage, he broke out into all sorts of exclamations against the bar and walked up and down the deck shaking his hat at me, telling me that my fortune was made, as Simonet had explained to him that if the Villarino started from San Blas instead of Patagones there would be no bar at all, and no trouble whatever in getting back to Buenos Aires at a certain fixed time. Spurr, to make matters worse, informed us that he was once 44 days at anchor off the bar waiting for it to calm down. This staggered us—we had bills to meet at the end of the year, accounts to close up and many business transactions of much importance pending for the end of December: To be kept at the mouth of this river till the beginning of February was simply blue ruin, and yet escape seemed out of the question. Sunday we passed examining our conscience walking up and down the deck and reading Sir Charles Gavan Duffy's Young Ireland—from cover to cover we read the book, and finally knocked the cover off it arguing with Davison about O'Connell and the repealers. Monday came and at last we were to start, but this morning not even the pilot came off, but creeping up a pole like a monkey he hoisted a cane, or a brickbat, or a sheepskin, or some such emblem, to tell us that it was no go, and that the bar could not be attempted that morning. The fresh beef gave out, bread all eaten up, and as for cigars Davison opened a box that he had kept for the return voyage, but not even the Indians at the bow could smoke them; they beat Siever and Meyer's, of happy memory, that the very robbers who stole them returned them the next day. Where Mr Davison got such cigars must be for ever a mystery, for certainly they were malignantly bad, and Capt. Spurr asked him as a favor to throw them overboard. Mr Figueroa set off in the steam launch for fresh beef, to return next day. There is not in the wide world a more dreary spot than the mouth of the Rio Negro, when you are waiting to get out. Everything about the place wore an altered hue from the gushing morning when we entered. Davison kept hammering all day long about San Blas, and that this confounded bar would be the making of my fortune; with Crespo and some other passengers he made estimates of the cost of a tramway from San Blas to Patagones, but if San Blas were to be turned into Havre de Grace or Glasgow, we should still have felt impatient at the constant congratulations about this confounded bar and the certain future of our Bay. Tuesday morning at last came, the wind calmed down, the Pilot came off, and when we were all at the tip top of expectancy, Davison came on the quarter-deck with the news that the bar was all right but there was no water. Luckily Captain Spurr was not to be frightened, and at last we got up steam and came straight out to the bar—the waves were still high. Simonet stood at the bow, Captain Spurr on the bridge and the Pilots pale as ghosts alongside; we had gone so far now that there was no turning round. "Put her at it" shouted the Captain. *Bump* (my white hat nearly fell off) *Bump, Bump, Bump.* Davison we could see nothing of; he might be reading young Ireland or saying his prayers below; but at last Spurr jumped from the bridge to the quarterdeck, and with a loud cheer said we were over the bar, and now ho! for Buenos Aires. Had the Villarino been somewhat longer, we were of course all booked for, as she would have split in two, and the slightest accident on that bar was the other world for us all; not even the greatest swimmer could have reached the shore in such surf. As we got out in front of Punta Raza the sea was tremendous; few could breakfast; we felt so pleased to have escaped from such a trap as that Rio Negro bar, that we cared nothing for the rolling of the steamer and sat on the gangway watching the unfortunate Indians praying to the sun, moon and stars to get back to Nahuel Huapi.

EDITOR'S TABLE.

The news from Europe by R. M. S. Elbe (telegraped from Pernambuco to the *Nacion*) is rather important. The Nihilists have burned part of the port and city of Cronstad. Gambetta's paper, the *Republique Francaise*, declares that the Emperor of Germany is firmly resolved to restore the temporal power of the Pope, and the Italian papers say that Italy wont stand it. It is curious to see this question cropping up again, but poverty and politics make strange bedfellows, and it would be hard the find stranger ones than Bismarck and the Vatican. Napoleon the Great said that, with the Papacy at the back of his legions he could dominate the world, but he went the wroug way to secure that powerful support. Will the 'great Chancellor' be more successful?

The Rowe case is likely to give rise to a diplomatic question. Not having reported it hitherto, we may state that Mr Rowe was born in this country, went to the United States, became a naturalised citizen there, returned here, was imprisoned by the Provincial authorities for refusing to enrol himself in the Nat. Guard, and subsequently released on General Osborne, U. S. Minister, remonstrating with Dr Irigoyen, Minister of Foreign Affairs, who induced or ordered Governor Rocha to liberate him, which the latter did, we believe on bail. The Governor has now issued a decree declaring that Mr Rowe is bound to follow the Argentine drum, in spite of his naturalization in the United States. So the matter stands. Without entering into the merits of the question, which would take a Calvo to unravel, we really cannot see what the Provincial Government has to do with a case which it is exclusively the province of the National Government to deal with and decide.

Sr Du Gustavas Dessein has been named 'Municipal titular' of Flores, an excellent appointment.

The event of the day is the Archery Fete at Flores. The bows, arrows, targets, lawn tennis, croquet, big cake, gold rings, high tea, roulette etc. are all ready, and we have only to wish the meeting the most stupendous success. The novelty of the thing will attract thousands to the Village this afternoon.

We hear that the Irish estancieros of the Capilla del Señor have determined to provide the community with a hearse, the use of which will be gratis. This step has been decided on in consequence of the exorbitant charges made by the owner for the use of the only hearse in that district, often 2000 dollars or more for a journey of a league or less. The Rev. Father Grennan, and the neighbouring estancieros Messrs Dillon, Gaynor and Scully have contributed 1000 m/c each for the purpose.

Yesterday the college church was crowded on the occasion of the marriage of Mr. James F. Gahan, youngest son Dn. Tomas Gahan, estanciero, Lobos, to Miss Hencelia M. Moore, eldest daughter of the late Mr. Edward Moore. estanciero. The Rev. Father Davis officiated and after the ceremony there was a grand spread at the Hotel de la Paix. The whole affair was one of the grandest witnessed for some time. We wish the young couple the realization of their brightest dreams of happiness and hope they will celebrate their golden wedding at the same hotel with equal eclat, and the full particulars be published in the *Standard*.

Mr. Emilio Mitre y Vedia writes a very pleasant letter to the *Nacion* describing the launch of the new dredges built for this country. At the lunch he had to make a speech in English, which he modestly says he got through badly, but we dont believe him. The toast of 'the Ladies' was proposed by Mr Caesar. Gomez, the youngest bachelor at the table, and the young Englishman who returned thanks for them made such a humorous speech that Mr. Mitre was tremendously tickled, says he never laughed so heartily in his life before, and that the essence of all English oratory is humour. This is not the general opinion of the world but we are inclined to think Mr. Mitre is right. All the great orators of the United Kingdom employ humour on important occassions.

The German Singing Academy announce a superlatively grand sacred concert for Holy Week, with Mozart's Requiem. This will be a treat indeed. Several English ladies and gentlemen have promised to take part in the concert, and we are requested to remind them that the rehearsals of the Requiem will commence to-morrow evening at the Coliseum, and to use all our influence (our influence is tremendous, especially with the ladies, God bless them) to induce them to muster strong at the first rehearsals, which are the most important.

Interesting Letters from our own correspondents in London and Rio Cuarto will be found in our Supplement. The news about the proposed Powder Factory in the latter place is rather glum. There was a smash on the Andine Extension the other day.

Householders are beginning to detect a very disagreeable, not to say disgusting, smell and taste in the Pipe Water. Is Mr Dawney's warning coming true already? We devoutly hope not, but it looks uncommonly like it. As usual, the Health authorities are taking forty winks over the matter, although it is a vital one.

The Villarino will sail for the South again on the 22d inst.

Mr Sanchez, cashier to Don Leonardo Pereira of 160 Calle Victoria, won the whole of the 50,000 pats prize in the Montevidean Lottery last week, Lucky "cajero!"

We feel great pleasure in saluting Dr. Gould, the distinguished Director of the Cordoba Observatory, who is on a visit to town.

The Montevidean telegrams yesterday reported a rumour down there to the effect that Santos means to resign his candidature for the Presidential Chair and allow some one else to occupy the thorny seat. If he has done so, he is wiser than we thought him. Next to the throne of Russia, the P. C. of B. O. is about the hottest seat we know of.

The *Libertad* says that the Municipality is about to take steps with the city theatres, to prevent a repetition of the Vienna horror here. We are rejoiced to hear it. The bare idea of having Buenos Aires High Lite cremated some night is awful. The new theatre in Calle Florida is little better than a cremation furnace; it has, and can have, only one exit on the street, an iron gate that opens *inwards*; and if it should swing to in a panic?—Awful to think of.

General Olascoaga has sent most important news to General Roca. The General has had a long chat with General Saavedra about a joint campaign of the two countries against the Indians, and the Chilians are anxious to help in every way and supply the Argentine troops with provisions. Another bit of good news is that General O. has discovered a new pass through the Andes, just the thing for Mr. Clark's railway, at Lhahua. But a short year ago no one expected we would so soon be such goed friends with the Chilians: Nature and the American Ministers did it.

A theatrical performance will come off on Saturday night at the Germania Club, 385 Calle Tucuman, which, for its originality, will attract much notice. The piece to be given is 'Schneeweisschen & Rosenroth,' a merry tale, and the actors, with the exception of 3, are children from 8 to 13 years of age. The play winds up with a ballet, danced by the young actors and arranged by Sig. Alberto di Giovanni, the well-known ballet-master. This piece has already been performed (a few weeks ago) and received such a good reception that the Committee of the Club have resolved to repeat it once more for the public. The German band, under Mr. Koppelmann's direction, so favourably known through their concerts in the Zoological Garden, will accompany the performance and play afterwards for the dance. Everything promises an amusing evening, and a crowded house may be expected.

The Judicial squeeze has knocked everything inside out. Judges, barristers, escribanos and procuradores were all walking about yesterday with their hands in their pockets. The 'escribanos' looked decidedly down in the 'boca,' as the Direccion de Rentas has threatened to 'execute' every man of them that does not pay his rent within a given time. Some of them are for issuing a 'No Rent' manifesto, but only a few.

The Provincial Government has been lamentably unfortunate in its choice of valuators in the camp partidos. Within the last four months no fewer than 29 of these gentlemen have got into hot water for discrepancies in their accounts. So glaring is the evil, that the Governor has now given the Inspectors summary powers to deal with those caught tripping in future.

The first articles from England for the Exhibition have arrived; also a lot from the provinces. The conviction grows stronger every day that if the attempt to open the Exhibition on the 15th prox be persevered in, the whole thing will be a 'fiasco.' It is a sheer impossibility to finish the building, lay out the grounds, and get the exhibits properly arranged in their places in 5 weeks more.

The French residents are organising another Saint Cloud fete for the 29th of this month.

Boccomini, the Italian actor, died on his way to Europe from this country; he only left here a couple of months ago.

Muffs are in fashion again this winter in Europe, but they are worn, like the 'unmentionables' of our distinguished countryman Brian O'Lynn, with the fur inside and black velvet outside, thus affording more warmth to the hands.

The Sewing Machine depot at 427 Belgrano sent round an elaborately got-up Almanack for 1882 yesterday, a splendid affair. We were also favoured with the beautifully coloured Almanack issued by the Italo-Platense Lithographic establishment at 110 Calle Bolivar. Seldom have so many gorgeous almanacks made their appearance as this year.

It is no wonder that the public complain of the Post Office. The *Prensa* says that the Administrador de la Campana is in difficulties with his superiors, first for irregular delivery of mails, second for charging $3 m/c for an ordinary letter instead of $2, and third for having a constitutional aversion to the public delivering him letters already stamped, preferring that they hand him the cash, so that he may stamp the letters himself!! Ha! Ha! A blind horse could see through this 'little game.'

The *Revista Medica* says that, in spite of the changeable weather—from hot to cool, from stormy to benign—the health of the city is good. The rain does it: wet weather is always healthy in this country.

Patacones	25.05
Cedulas A	102
National Bank Shares	127
Primitive Gas	1,825
Roads and Bridges	100½

There has always been more or less demand for gold in the market, to meet payments in specie, and amounts have been daily sold at 25.02 and 25.02½; this morning some 8,000 pats were secured at 25.05. The small amount makes the price lose much of its importance, but at all events it shows that gold is not easily secured in the market, and that holders of specie do not wish to let go at par. Until the "Oficina de Cambios" is duly opened and the Bank gives gold for its notes, the patacon will claim a slight premium to most payments for imports, and the faena in the rivers. On the other hand the question of double shops, the difficulties between both Governments, and the indefinite financial measures of the Provincial Government, have not been such as to inspire any surplus confidence as to the turn in affairs. Several parties point to the great contrast between the financial condition of both Governments; whilst the Provincial Government is flush of money, its coffers full, the National Treasury is in the normal condition of Custom House returns. The new loan fills the vaults of the Provincial Bank, whilst the Nation has to fall back on nothing except increased imports and exports.

Cedulas continue their onward course, although the transactions in the market are limited to very small sales. Series A is firm at 102 for cash, while the stock is bought freely at 103 for end of the month. In Series E there is nothing doing; holders want 89 for small amounts. The sales of the day marked on the black board did not reach 50,000 pats.

In National Bank Shares more activity was remarked, but the market remains indifferent, and no defined tactics have been shewn. The sales for cash opened at 126¾ and closed firm at 127; some 700 shares sold at these rates. For end of month 1,000 were sold at rising rates from 127 to 128. The market closed very firm at 128. Lower down our readers will find a statement of the business of the branch in Santa Fe; the figures show the increased business of the Bank, which promises to double in the current year, if the season is favorable.

In Primitive Gas Share the market is buoyant and rising; the rise has been a heavy one since last week. The shares now sell for cash at 1,825 m/c and for end of month at 1,850 m/c.

Roads & Bridges are weak since the coupon has been paid. Some 5,000 done at 100½.

The Luxor leaves to-morrow (Thursday) for the West Coast; she touches at the Falklands.

Telegrams must have been received from Havre to-day. The auction came off yesterday; some 600 bales offered, and the prices, it is surmised, must have been very high, to judge by the gigantic wool transactions done this morning in Montevideo.

Messrs E Schröder and Toleda, the two active members of the Buenos Aires Committee of the Exhibition, paid their first official visit to the building on Monday, to inspect the site ceded to the exhibitors of this provinces. They report everything progressing, 260 m n hard at work. The Argentine Gas Company has finished laying down the gas pipes, and the workmen can pursue the even tenor of their labor at night now. Mr Möller, the Danish architect, superintends everything, and hopes that everything will be ready by the 15th prox. if exhibitors put on a little steam. The present building has been erected in 33 days, and the men are working at the rate of 1000 square yards of flooring per diem. The theatre will contain a thousand people; everything is supported by strong beams, down into the earth 2 metres and surrounded by masonry and Portland cement; salycilic oil covers the beams three yards high, making the timber incombustible; so nobody need fear a repetition of the Ring Theatre disaster in the Once; over 25c,000 bricks have been employed in securing the foundations of the building, and the architect defies all the winds in the Pampa. Two hundred more workmen have been engaged to spread out the gardens, and Mr Bieckert has 50 men hard at work at his grotto, where the beer will flow like a rivulet and freshen the surroundings during the hot summer months. The new 'vereda,' 2 yards wide, is attracting the attention of all: the flags of this 'vereda' are German, and come from a place called Porta Westfalica: they are exactly the same as those in front of Bruhl castle near Bonn. On Monday next the floor and painting inside the building will be finished and exhibitors may send in their exhibits.

Herr Krupp, of Essen, has taken up 400 square yards of space for his 80-ton cannon, field-guns, mitrailleuses, torpedoes and railway materials. The Argentine War Office will exhibit Argentine Krupp guns.

The Pliny leaves to-morrow with the following cargo—
1,989 bales of wool
165 bags minerals

The Herschell left to-day: she takes—
For Havre—
1,529 bales wool
3 cases feathers
For Liverpool—
253 bales of wool

The Leibnitz, commander Ferguson, left to-day with the mails and following cargo—
For Antwerp—
1,450 bales
120 bags linseed
For Liverpool—
5 bales and 12 casks dry blood.

The Kepler arrived this morning in Montevideo; full cargo engaged.

The Vandyck has engaged full cargo and leaves to-morrow for Rosario.

The Delambre is expected here to-morrow from Rosario, where she discharged railway materials; she loads for Antwerp.

The new Liverpool and Hull steamer Mozart is due here on the 14th inst.

The Chargeurs Reunis steamer San Martin took 2,378 bales from this port.

Freights firm and wool markets active.

Exchange unchanged.

The brokers are applying to the Camara Sindical about their books, that they may be revised by the Secretary.

Municipal Bonds were sold to-day at a late hour at par.

At afternoon hours news was expected from the Provincial Bank, but nothing was done at the meeting.

Artistas received telegrams to-day, adding fresh purchases within the usual limits.

The engagements of bales since the beginning of the season are calculated at 110,000 There are so many bales now offering that there are not enough steamers in port.

The Northern and Ensenada Railways have offered to make a reduction of 50 o/o on all freights for the Exhibition. The G. Southern and Ensenada have as yet decided nothing in the matter.

At afternoon hours Cedulas and Bank shares rose. Series A went to 103½, sellers at 104. In shares a brisk business was done and some 700 shares were sold at firm and rising rates. The market closed hard at 129. A very heavy speculator offered to buy from the Italian King 1,000 shares at 5 o'clock, but offer refused.

The Provincial Bank Directors did nothing to-day about the double stamp business; it seems the Provincial Government has sent no message as yet to the Bank. The discounts to-day were about 5 millions m/c.

Mr C Casares continues very ill and confined to bed.

Another cargo of Magellan Straits coal in; they sell it at 280 m/c per ton delivered at the house.

A share of the French Club was offered for sale on the Bolsa to-day; not sold.

The War Minister will send a gunboat to San Blas in a few days to survey that harbor and Dr Hector Alvarez sub sec Interior leaves on 22nd for a month's bathing at San Blas.

Mr. Schultz of the Tigre has been named director of the Russian Colony at Olavarria; we expect now to hear reliable news from there.

The complaints of passengers of the Lacroze Tramway are many. The 'mayorales' and drivers dodge the public by changing flags, then horses, and finally tram-cars. As these abuses are daily occurrences and occasion much annoyance; it is to be hoped that Messrs Lacroze will name proper inspectors to put a stop to the unjustifiable conduct of both 'mayorales' and drivers. On the other hand, the drivers are so lazy that they do not take the trouble to get down and remove paving-stones from the rails, but drive over same, shaking the passengers, running the car off the line, and damaging the wheels. Such things should not occur on a well managed tramway.

M G Dessein has been named Municipal of San Jose de Flores.

The correspondence from London in to-day's *Nacion* was read with much interest; it is all about the new dredging machines in construction for this Government. Far better to construct these machines than iron-clads or torpedo boats.

There seems to be a move at last in the proposal to construct a branch line from Santiago del Estero to the Tucuman Railway. Some time ago the proposal was submitted to the Department of Engineers, and the report of same is expected soon.

Captain McKinnon, of the barque Colorado, picked up near Cape Horn, 56o 25' Lat. S. by 68° 44' L. W., five sailors of the English barque Thomas Hunt from Stonington. It appears that the crew landed in the Isla Diego Ramirez, and that the Thomas Hunt had either sailed away or foundered.

The Marine Office is preparing some torpedo experiments for next week, to be witnessed by the President of the Republic and friends. The Maipu, Py, and Ferre will manœuvre and throw torpedoes. These are dangerous amusements, but happily the experiments will take place far away in the Ensenada.

As the new Marking Law might lead to misinterpretations, we inform our camp readers that the expense consists in the new stamp, 500 m/c. Some might be led to think by the tenor of the law that the cost of boleto and stamp amount to 1,000 m/c.

The Provincial Minister of Finance has signed the payment of 8,750,000 m/c into the Provincial Bank, obligations to be met on the new loan.

There is some talk of the creation of an Industrial Bank. The country needs more emigrants before the title of the Bank can warrant its foundation. The industries of the country are few outside of B. Aires.

The profits of the National Bank in the province of Santa Fe represent 15 o/o on the capital. The business of the establishment during the last year was as follows:—

	$f.	$f.

The above figures shew the prosperous state of the Bank and the growing business of the Province. The figures speak for themselves.

The following sales are reported:—
5,000 hides from L Repetto's saladero, 65 lbs, at 47½ rls. gold.
1,000 hides from Rocca & Co., 66 lbs, at 48½ rls.
1,500 do do, 65 lbs, at 48 rls.
1,500 potro hides of L Repetto at 18 rls., 34 lbs.

The sale of from 8 to 10,000 hides from the Luro establishment, done some time ago, consisted of 65 lbs. hides at 48 rls.

All the sheep that come into town by the Western will soon have to be revised in Flores instead of the Once. The Government has issued a decree to the effect, and it will be enforced on the 15th instant.

The flax crop in Sta Fe is expected to yield 250,000 ar. The principal flax plantations are in San Carlos, Oroño, Gessler, San Augustin, Santa Teresa, Candelaria, and Jesus Maria. The average yield of flax up there is 25 to 1, whilst wheat only gives 18 to 1. The *Nacion's* correspondent in Rosario states that the Argentine flax is much inferior to the Russian and Indian quality, and that competition with same is impossible. The flax fibre in Sta. Fe is used as fuel; this reminds one of the days when estancieros manured their camps with dead cattle, and maize was used for fuel. Ten years hence, if not sooner, we will export the fibre by thousands of tons.

The P.S.N. Co's str. Britannia left Valparaiso on the 4th inst. en route for Montevideo.

Messrs Schwartz & Co.'s proposal to construct several small steamers has been passed to the Marine Department, awaiting the decision of same.

Mr E Mollern has requested dispatch free of duty of a new machine for washing wool's.

The classification of patentes in this city will take place this month. Calculations have already been made as to the probable returns of this tax; this city gave last year in patentes 13 millions currency, and estimates for the current year reach 14 millions m/c, owing to the number of new houses started. An increase in the Contribucion Directa Tax may also be anticipated, as in no former period have we seen so many new and magnificent buildings in construction.

The Rosetti will leave next Saturday with provisions for the South, if no obstacles are in the way.

The National Department of Agriculture is thinking of drawing up plans of the status of agriculture in this Republic. Certainly it is high time that some statistics of the kind be made. The Juries of the different Provinces for the purpose have not yet been named.

Final arrangements have been made with the Argentine Gas Co. to illuminate the Once and Exhibition building.

The federalization of Buenos Aires is leading to great improvements in all the camp towns, and the Provincial Bank will soon start branches in the most important; Flores, Barracas, Belgrano, Bahia Blanca, and many other districts will soon be blessed with "sucursales".

The Western Railway intends ordering the purchase of Pullmann cars. it would be far better to construct same in the country with the Chaco timber. Every carriage and waggon on the railways should be made here, and the Directors should not for one moment countenance their purchase in Europe.

Mr. Waldorp, the well known engineer, has already received instructions from the Provincial Government as regards the draining of the Southern camps. The enterprise is a gigantic one, but it will be a great improvement, and estancieros in the South may congratulate themselves on the pleasant prospects of no more floods

Advices from the Avellaneda Colony state that all the wheat has been reaped. Some 2,500 fanegas. Nearly all the wheat has been bought up by parties for a steam-mill.

The Minister of Finance has conceded exoneration of duties on some machinery for a sawmill of Messrs Varlett & Co.; the mill will be put up in Victoria, Province of Entre Rios.

Circulars were given round to-day, announcing the transfer of Messrs Storni Hermanos & Co's ironmongery business to the well known firm J Mohr Bell & Co., of which Mr Kirschenbiider is now a partner,

From Cordoba we received circular, announcing the liquidation of the firm of Lerch, Heins & Co., owing to the death of Mr Lerch. The new firm of Heins, Felix & Co., has been formed, which will carry on the business of the late firm.

The German str. Rio cleared yesterday, taking 1,700 bales, all the steamers now find more bales than they can carry.

The sale of 5,000 cows "al corte" at 250 m/c, delivered on Sr. Basualdo's estancia, Ayacucho, is reported; Sr. Urioste seller. The cows had to be driven over 100 leagues, and arrived down in three lots all right.

Sr. Basualdo has just sold 12,000 picked sheep at 33 m/c; the sheep to be picked out of numerous flocks by the buyer before Feb.

Mr Warner of Rojas has passed his examinat on and taken out his diploma in Santa Fe as land surveyor.

78——ALSINA——78
El Jueves 19 de Enero
A las 3 p.m.

Remataremos a la mas alta postura y dinero de contado pasando la base arriba indicada por orden terminante de sus propietarios y por liquidacion de sociedad estos magnificos campos situados en el Partido de Bahia Blanca, y que podamos reputar sin exageracion alguna los mejores, en cuanto a pastos y aguadas permanentes de aquella localidad ; campos poblados hace mas de 31 años.

Los Manantiales—(Plano A)

LOTE No. 1—Una suerte de estancia o sean ½ legua con frente al Naposta Grande arroyo de agua cristalina, permanente y dulce ; linda por el N. Este con D. Sisto Laspiur, por el Sud, Oeste y Nor Oeste con Jorge Claraz ; tiene una poblacion construida de piedra y barro con techo de fierro de 4 reales por vara cocina con techo de paja y un corral de piedra para ovejas, grande y bien situado.

LOTE No. 2—Se compone de 4½ leguas mas o menos sobre el Naposta y linda por el N. O. con los Srs C Hewsser Arce y Chaulini ; por el N. Este con el lote num. 3, y por el S. Oeste con Cuquet, Bajo Hondo y el Estado. Tiene en el Centro del campo, la Laguna de Manantiales y el arroyito del mismo nombre : las poblaciones son : sobre el Naposta grande uno de dos piezas de material y un pequeño galpon de lo mismo ; otro de dos piezas, uno de adobe crudo y la otra de piedra con un gran corral de piedra para ovejas.

La poblacion de los Manantiales se compone de tres grandes piezas de material de adobe crudo con techo de tabla y fierro ; a mas dos puestos construidos con los mismos materiales que estos ultimos.

LOTE No. 3°—Lindero con el anterior y se compone de 3 leguas aproximadamente con frente tambien al Naposta y fondo hasta el Bajo Hondo ; tiene tambien una laguna 'Los Salados', una poblacion sobre el arroyo de una pieza de piedra como las anteriores y dos poblaciones de adobe crudo con techo de fierro

El total de estos campos, conocidos por los Manantiales dista dos leguas y diez cuadras desde el Esquinero Oeste a la plaza del pueblo de Bahia Blanca y su superficie total segun la reciente mensura practicada por el agrimensor D. Federico Gomez Molina, se compone de 8 leguas cuad. mas 538 cuadras.

La calidad de la tierra es en todas partes vegetal, arenosa hasta una profundidad que varia entre media y tres cuartas pero se nota de una manera bien clara la fecundidad de ella, en los parages donde ha sido removida ha brotado subitamente y en abundancia el trevol de carretilla y el alfilerillo, ambos pastos tiernos y dulces.

Aguadas—Tiene el Naposta Grande, las Lagunas, Los Manantiales y Saladas y el arroyito Los Manantiales.

Ademas, se encuentra el agua a diversa profundidad en este campo a consecuencia de los accidentes del terreno y que varia desde 1 hasta 13 metros de profundidad.

Pastos—Los pastos son mezclados, encontrandose el alfilerillo, trevol de carretilla, cola de zorro, pasto duro, flechilla, vinagrillo, té pampa, cebadilla y macadieu, predominando en un 80 c/o el trevol, alfilerillo, pasto duro y cola de zorro.

Este campo es apropiado para hacienda lanar y vacuna, indistintamente, la cual se encuentra en tal estado de gordura que se necesita trabajo encontrar animales que sirvan pasa el consumo.

Nueva Roma—(Plano B)

Se compone esta fraccion de tres y tres cuartas leguas cuadradas sobre el arroyo Sauce Chico y sus linderos son por el N E Juan y Eduardo Vidal y Francisco Ceico, por el S E, Francisco D Bozzaur, por el N O los mismos Juan y S Vidal y por el S.O. el Sauce Chico, dista este campo del Esquinero Este 4½ leguas de la plaza principal del pueblo Bahia Blanca.

PASTOS—Estos son en general cola de zoro pastos duro y carretilla, existiendo unicamente en sus bajos y muy principalmente en los comprendidos por el arroyo Sauce Chico y Saladillo, Lazaga y Garcia, con gran abundancia el trevol dolor, alfilerillo, mostaza y te pampa Este terreno es apropiado por su mayor estension a la cria del ganado vacuno.

Calidad de la tierra : es semejante a la de los Manantiales y se nota tambien claramente la fecundidad de ella.

AGUADAS—Tiene el Sauce Chico arroyito permanente de agua dulce y cristalina, tiene ademas dos Saladillos o arroyitos.

Los vertientes, debido a lo accidentado del terreno, se encuentran desde los 40 centimetros hasta los 11 metros de profundidad.

La venta de esta fraccion se hara de la manera siguiente—

Lote No. 1—Compuesto de una y media legua cuadrada.

Lote No. 2—Una suerte de estancia o sean tres cuartas leguas con opcion a los Lotes No. 6, y 7, cada lote de ¾ leguas.

Creemos de nuestro deber llamar la atencion de los estancieros sobre estos magnificos campos que como ve por los informes del agrimensor son de primera calidad.

Su situacion no puede ser mejor, distan apenas 2½ leguas del Puerto de Bahia Blanca, destinado a ser el mas importante en toda la costa Sud, de donde podran embarcarse directamente todos nuestros productos de la vasta campana Sud de lo Provincia.

El fleto desde alli al riachuelo vale unicamente $3 por arb. de lana y enfardilada la mitad.

Ademas es publico y notorio, la prolongacion del ferro carril del Sud desde el Azul a este punto, asi que puede decirse con seguridad, que estos campos en pocos anos valdran de $600 a $00,000 la legua.

Por planos e informes impresos, ocurran a nuestra casa Alsida 78, desde el 20 del corr, en adelante.

Remataremos a la mas alta postura y dinero de contado, por orden terminante de su dueno

Este magnifico campo compuesto de 20 cuadras de frente por 40 cuadras de fondo, igual a 800 cuadras cuadradas, alambrado por tres costados, por los linderos, de manera que solo hay que alambrar por un costado.

Sus linderos son Venancia Casalins y Francisco Letamendi, por fondo el hinojal de Anchorena, por el frente el camino que va a Dolores y Ranch.

Dista unicamente doce leguas de Dolores.

Sus pastos son tiernos y lo prueba la existencia de 8000 ovejas en el mismo campo. Esta arrendado con contrata hasta Enero de 1883 y produce $75,000 al ano.

La diligencia que sale de Dolores para Rauch los dias 9, 10 y 20 de cada mes pasa por la misma izquierda de este campo.

El campo se vendera en base y la venta se hara mitad al contado y el resto a 6 meses de plazo con un modico interes.

Inutil nos parece entrar en mayores detalles sobre esta propiedad, aquellos campos son reputados como los mejores de la Provincia.

Los titulos son de primer orden, garantidos, pudiendo revisarlos los interesados en nuestra casa Alsina 78, donde tendra lugar el remate.

LONDON LETTER.

(From our Own Correspondent)

December 9th.

In one of the most popular books of the present season in London, 'Between the Amazon and the Andes,' by Mrs. Marion Mulhall, is a vivid account of what the authoress, by a literary figure of speech, calls 'the plague,' that is the yellow fever, in Buenos Aires. When we look back to that sad period, it is not astonishing that the Government and port officials of B. Aires quarantine regulations, or that they should err on the side of safety in should resort to what the Royal Mail Company's notice to the London Post-Office choses to call 'vexatious restrictions.' Still, such is the marvellous and inexorable operation of the law of the conservation of energy, that no sooner are the particular forms of superposed atmospheric vibrations put in motion by a 'vaya' or a 'carambo,' extinguished in the Capitania of Buenos Aires, than in London merchants swear and commerce stops, and humbler correspondents echo the Buenos Aires exclamations in other forms, and shove their letters into the pillar-box and address them 'by anything that is going,' or 'as God wills.' The Post-Office calendar, our usual guide, is now no use, as far as the Buenos Aires mails are concerned.

Another instance, you will hardly believe, of the unsuspected fertility of a scientific principle and of the mysterious concatenation of human interests is the lately-repealed 'malt tax,' at which Conservative leaders, such as the Salisburys and the Churchills, in the density of their ignorance, are wont to smile as a Gladstonian failure or imposition. The economic principle that repeal involved is gradually beginning to tell and to revolutionise the trade and manufacture of beer. It is possible that, as malt is now being largely made from maize, a new staple of export to this country may be discovered to the benefit of your farmers. The sugar got from raw grain, that is, unmalted rice, maize, &c., costs less than the pure malt. It is said in the trade—my authority is the *Daily News*—that rice at present prices is the cheapest sugar-producing material of any; but taking maize, the bitter-oil germ being extracted by what is known as Robertson's process, it seems that while a quarter of malt would cost 45s., an equal quantity of germless maize would come to about 30s., and give a yield so much greater as to make a saving to the brewer of 60 per cent. by the use of maize

A propos of River Plate exports, Jackson's wool has been sold at Liverpool for 12½d, which is within a half penny of the average of the best Australian.

The latest Board of Trade returns are very satisfactory and people seem busy and in good humour.

The 19th annual report of the London and River Plate Bank (Limited) states that, after providing for bad and doubtful debts, adding £25,000 to the reserve fund, which is thus raised to £175,000, and further reducing the cost of the premises abroad by writing off the sum of £8,683, the directors have declared a dividend of 4 per cent. and a bonus of 2 per cent for the half year ended with September 30th, which makes, with the interim payment in June, a total of 10 per cent for the year. A balance of £3,352 remains to be carried forward.

A most important pamphlet has just been issued by the Board of Trade to show that the protectionist system in Germany has proved disastrous to the commerce of that country. The different Chambers of Commerce in Germany have given their opinion as to the working of the new tariff which came into operation on the 1st January. The opinion of the Chambers of Commerce, and particularly of large and politically independent communities is unanimous in disapproving the tariff and the system.

The resources of Germany are not like those of young countries; and even in the United States the newspapers laugh at President Arthur's naive notice of further protecting into existence a Shipping Trade which has already been exinguished by protection. The Americans have taxed themselves to redeem their debt. In 10 years that redemption will be achieved, unless a protectionist administration thinks it better to spend the money on the army and navy rather than in paying off the balance of the debt or in lowering customs duties; but they must do something with a surplus increasing beyond their wants. The surplus thus poured into the treasury is not only unproductive capital but every penny of it, in checking free exchange, is a loss to the civilisation of the American people who in course of time would become an insulated grotesque dollar-worshipping 'China' race.

I breakfast every morning with a young American, a nice intelligent fellow. He sits with the newspaper before him carefully guarding a pot of orange marmalade, 'I guess he says 'we hav'nt this stuff at home.' 'Not marmalade!' I reply 'not—good gracious!' Then he suddenly remembers the question of import duties, protection and the rest.

Mr Parnell has been ill in Kilmainham, and at a meeting to form a Prisoners' Aid Society, held in Dublin yesterday, Mr O'Donnell, M.P., having just been to visit Mr Parnell in prison, said the indisposition was caused by the bad diet, which was enough to break down the strongest constitution.

The only new fact in connection with the Dun Echt outrage is the employment of a sleuthhound, the same as was successful in discovering a murder some time ago at Blackburn. The dog is to be taken into the vault to-day, in the hope that it may find and take up a scent afterwards outside.

RIO CUARTO

(From our own Correspondent)

The hot days of December are forgotten under the influence of cool southerly breezes. The last week of the old year was one of clouds thunderstorms and heavy rain, the rivers are running, the lagunas are full, and the wide pampa presents one vast expanse of brilliant green So the new year opens favourably with prospect of fat novillos and abundant crops. The late heavy hailstorm did not reach to the Colony of Sampacho: the wheat fields wear the yellow tints of harvest time, the maize is springing up vigorously, everything bears promise of a prosperous season. Everything save our railway; our long promised engines are not yet to hand, our rolling stock becomes day by day more inadequate to the work forced upon it, and the second of the New Year saw a sight to which Rio Cuarto is happily a stranger. A train of empty wagons from the South, tied together by ropes instead of the usual couplings, and on inspection showing the reason, in broken buffers and draw-bars, and splintered wood-work.

On the night of the 1st, two material trains were despatched from Fraga down the extension, the first with two engines, one in front and one behind; the second, a lighter train with only one engine, had instructions to follow cautiously, which the driver carried out by rushing down an incline in the darkness, to help his predecessor on his way, result a smash, fortunately no one hurt, but serious damage. Two engines with their cow-catchers broken to pieces. The damaged wagons nearly all belong to our friends of the Central, who will probably send in a heavy bill for demurrage, to say nothing of the damage, which Mr Dinkledein is doing his best to repair.

Also on that same night a masked ball was held at the Cafe Argentino, with the not unusual result of a fight, in which a Commisary of police intertering on behalf of order was incontinently shot through the body, and there are small hopes of his recovery. The murderer was immediately secured, and will probably ere long have a chance of indulging his shooting propensities on Indians in the service of his country, meantime the services of a good man are lost for ever and a family is plunged into mourning.

We are expecting soon to hail the arrival of a 'powder engineer' from England; we have engineers of many nationalities who build powder houses, set up powder machinery, and talk largely of great things going to be done. This new man is to do it we suppose, but when? The buildings to be finished according to contract in March next are not half ready; some of the machinery is not yet shipped from England. Mr Bayliss who is putting up the machines, spends half his time sighing at the lack of any place in which to put up those he has. Minister del Viso was up here last month; if any one got near enough to him to tell him the truth, he must have gone back to Buenos Aires with a very different idea about powder-making to what seems at present to obtain at head quarters. If the new man comes soon, we wish him a pleasant time of it; he can draw his salary and 'pasear' for months to come, make powder he cannot, and when in some remote period he does begin, he will soon have another holiday, for it will blow up, and blow the place about his ears; as for keeping dust out of the mills he need not dream of such thing, but if he is very clever, he will have ample chance of inventing an entirely new combination of fine sand and gunpowder, which will doubtless be very effective in the making of holidays for him and fresh work for the building contractors.

More and more are our estancieros becoming impressed with the necessity of fencing, and some with the advisability of putting down 'norias.' If they would only become equally impressed with the importance of preventing camp-fires, and the systematic robbery of stock which goes on at present, the wealth and revenue of this Department would double in another two years. Indians were our ruin in years gone bye; they are stamped out, hence our prosperity, which however, is far yet from being what it might be. The absence of Indians makes robbery profitable; the absence of police makes it secure.

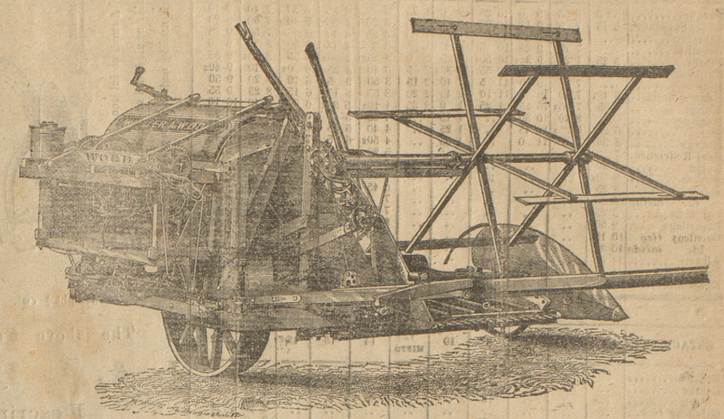
WALTER A WOOD'S HARVESTING MACHINES



A Competitive Field trial of Automatic Binders was held at Melbourne, in the Province of Victoria, Australia, on the 29th day of November, 1880, under the auspices of the Melbourne International Exhibition and in connection therewith, but under the direction and charge of the National Agricultural Society of Victoria.

The Machines entered for competition were:—

Walter A. Wood's Twine Binder,

Osborne's Wire Binder, Osborne's Twine Binder, McCormack's Wire Binder, McCormack's Twine Binder, Deering's Twine Binder.

(The judges in making their awards did not take into account the material used in binding, whether Wire or Twine, but were governed by the merits of the machine and quality of work done.)

Result of the Trial:

Walter A. Wood's Twine Binder

Was awarded the FIRST PRIZE.

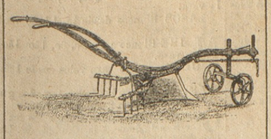
HOWARD'S CELEBRATED PLOUGHS

Howard's Small Ridging Plough

A small useful iron plough fitted with a double mould board or earthing up body, and much used by maize and vegetable growers.

Weight ¾ cwt.

Howard's Water-Furrow Plough



This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's Potato Ploughs.

With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D, fitted as above, weight 1½ cwt.
D D, fitted as above, weight 1¼ cwt.
S B, fitted as above, weight 1½ cwt.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 6th 1880.—To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c., at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*
